# Interested in a hi-tech engineering apprenticeship in Oxfordshire?

Learn all about our new apprenticeship programme and our employer partner vacancies at our careers event.

With a number of leading local engineering and technology employers using OAS to train their new apprentices, they are looking for candidates just like you to start apprenticeships at Culham Science Centre from September 2019.

**State-of-the-art facilities**

**Learn from the best**

**Industry recognised qualifications**

**Get paid while you study**

**Cutting-edge training**

## What will you learn?

The apprenticeship is designed to equip you with the skills you need for your future hi-tech career and will include:

- Design and CAD
- Robotics
- Engineering mathematics
- Engineering principles
- Mechanical maintenance and assembly
- Fluid maintenance and assembly
- Health and safety in the engineering environment
- Electrical systems instrumentation including PLC
