Dear Parent/Carer

Food Preparation & Nutrition Revision Guides – Year 10 and 11

I have had notification from Coordination Group Publications that they have released a new revision guide this month. Previously there were two books available: one as a revision guide and another as an exam practice booklet and the new guide combines the two. If the two books were purchased last year then these books are still up-to-date, however, I have included full details in case they may need to be replaced. These would be of particular use in the lead up to the mock exams in December and January.
